WORK EXPERIENCE

Inventec | Software Developer

June 2024 - Present

- Build data analysis and visualization tools using SQL, Power BI, and C# .NET Core for factory operations.
- Create and optimize **datasets and dashboards** based on production and management requirements.
- Develop and maintain **custom web solutions** to support manufacturing workflows.

Columbus Ind. | IT Engineer/Programmer

Aug 2023 - May 2024

- Provided **hardware/software support** across 3 Juárez plants and remote US sites.
- Resolved issues with scanners, Zebra printers, PCs, and networked devices via ticketing system.

UTEP | Webmaster

Sep 2022 - May 2023

- Managed and updated **websites for 30+ departments** using HTML, CSS, and CMS tools.
- Delivered client-requested updates under tight deadlines with high accuracy.

Microsoft | SWE Intern

May 2022 - Aug 2022

- Built a **front-end mini-game for Bing Shopping** in React and TypeScript to enhance engagement.
- Implemented UX features using local storage and browser dev tools.

Microsoft | Explore Intern

May 2021 - Aug 2021

- Co-developed a **full-stack barcode scanner app** using React and retailer APIs for live price comparison.
- Led **Agile project planning and feature implementation** in a 3-intern team.
